Augusta High School Class of 1962
50th Reunion 2012 discussion starters...

Perhaps you would like to share a response to one of these questions or thoughts listed below.

1. Share something that happened in high school that has affected your life in the last 50 years. (Like at our 45th, it was shared that typing has been a help in dealing with computers.)
2. Share a major event that you have had to face since graduation. (Some might share military experience, a big location move, going back to school after many years, etc)
3. Tell of a special event in the last 50 years that you enjoyed which has brought you lasting memories. (Like a birth of twins, a grandchild, retirement, traveling, or a special wedding, etc.)
4. Tell of an experience since high school that enabled you to learn a special lesson or lessons. (Like in traveling, learning that people are different, or realizing how fast a child can learn, being a grandparent is even better than being a parent, etc.)
5. Who was your favorite teacher in high school and why?
6. What things would you like to do in the future? (Travel to a specific place, climb a mountain, write a memoir, enjoy family)
7. What events in the 60's do you remember most? (Or pick a different decade and share memories you remember.)
8. What were some of your fun experiences after high school?
9. Share things a pre-school kid taught you in the last 5 years.
10. Share any thought about your last 50 years that perhaps your High School Class mates would be interested in hearing.

If you would prefer, please share something totally different from the suggested items above, something related to your life in the last 50 years.
